

TRAVIS BURT

travisburt@gmail.com - (720) 819-7154 - Lafayette, CO - <https://travisb.io>

EXPERIENCE

Oberd

Software Developer

Feb 2015 – Jun 2018

Columbia, MO

- Developed product activation and administration tool with React.js & Redux. Account management turnaround times reduced from hours to minutes and reduced client tasks for development team.
- Took ownership of Patient Satisfaction product, optimization of CakePHP code and database queries reduced report time from minutes to seconds, enhancing client retention and product sales.
- Centralized back-end data management system to Lumen-based RESTful API and AWS S3 storage.
- Maintained clinical management application, utilizing a Kanban system to add requested features and resolve defects; continuous deployment through Codeship to Amazon Web Services (AWS).
- Collaborated with other developers to establish coding practices to improve maintainability of products.

EDUCATION

University of Missouri

BS Information Technology, Minor in Computer Science and Business

Aug 2011 – Dec 2014

Columbia

Richland Community College

General Studies

Aug 2009 – May 2011

Decatur, IL

SIDE PROJECTS

Rorschach Test

Github: [TravisDoesStuff/Rorschach](#)

MERN-stack application that presents an ink-blot test for users to report what they see, and compare their results with others.

Travis Bio

travisb.io

React application serving as my personal site to show my history, skills, and other projects I have created. Hosted on Netlify.

Weather Station Model

Github: [TravisDoesStuff/WeatherStation](#)

Android application giving current weather conditions to user based on meteorological station model diagrams. Data provided by OpenWeatherMap, location provided by Google Location Services.
